Getting personal advice

We cannot provide you with personal financial product advice. Personal advice is advice that takes into account your objectives, financial situation and needs. Where you are referred to a financial planner for personal advice, they will make reasonable enquiries to understand your personal objectives, financial situation and needs. Their personal advice will always be provided to you in their Statement of Advice ("SOA"). You have the right not to tell them information about yourself. If you do this, they will give you a warning in the SOA. The SOA warning will draw your attention to the risks of not providing full information about yourself. Therefore you should, before acting on any advice you receive, consider the appropriateness of the advice and read carefully the warnings contained in the SOA before making any decision based on their advice. If you do not wish to receive personal financial product advice, you take the risk that the financial product that you select may not take into account your objectives, financial situation or needs.

How to invest

You will need to obtain a current product disclosure statement ("PDS") from us to decide whether or not to make an investment with us. The PDS contains information about our managed funds and helps you to make an informed decision about those products. It will inform you about the features, costs, risks and benefits as well as other information that you may need to know before you decide to acquire

the financial product(s). You will need to read the PDS and complete the accompanying application form in order to invest in the product.

Remuneration

Millinium Capital Managers' personnel who provide general advice on our behalf or act for in providing investment services to us are paid a salary. They may receive a bonus that is not directly related to the general advice they give you or investment services they give us. They do not receive any direct payment in relation to the general advice they provide on our behalf.

We do not receive any payment when general advice is provided on our behalf. However, if you decide to invest in our product, we receive fees in relation to that investment. Those fees are set out in the PDS for the product. These fees may change from time to time upon notification to investors pursuant to the Corporations Act 2001 (Cth). Our management fees range up to 2.00% of funds under management. We may also receive an early withdrawal fee and a loan administration fee from a borrower on commercial loan assets for a fund we operate, which is described in the PDS.

We have arrangements to pay referral fees to third parties in respect of any investors that are referred to us. If you have been referred to us by a third party, we may pay that party a referral fee of up to 0.27% of our management fee. These payments do not result in a fee increase to investors given they are paid out of what we earn.

If you have a financial planner, you will receive a Statement of Advice from them that sets out the exact amount of fees, commissions and other benefits they will receive, as well as any conflicts of interest that may arise for any financial product recommendations.

From time to time, we may also receive other benefits from underlying fund managers such as

conferences, subsidised training and research. We maintain a conflicts register for these types of payments and ensure they accord to industry practice.

All fees expressed are inclusive of GST.

ANTI-MONEY LAUNDERING

On 12 December 2007, the Anti-Money Laundering and Counter Terrorism Financing Legislation 2006 (Cth) ("AML") came into effect to reduce the possibility of financing terrorism and money laundering. The new rules are very strict and require us to verify the identify and in some cases, re-verify an investor by certified identification material of an acceptable certifier under AML.

As a result of AML, transactions can be delayed, blocked, frozen or refused where we have reasonable grounds to believe such transactions breach the law. Millinium Capital Managers is not liable for any loss suffered (including consequential loss) as a result of compliance with AML. If we do not comply with the AML process, Millinium Capital Managers can be subject to penalties.

Millinium Capital Managers also has certain reporting obligations under AML, including disclosure of information gathered to regulatory and/or law enforcement agencies, such as AUSTRAC and other bodies. Therefore, it important to provide correct information, as it is an offence to make a false or misleading statement under AML.
